Safety, health, environment & security:

- This is a non-smoking facility.
- The Yzerfontein residential area is surrounded by nature reserves and Green Belts running through the town. We ask that guests respect the environment at all times.
- Apart from a variety of small wild animals there are also snakes and scorpions and ostriches in our area, and it is advisable not to approach them at any time and give them right of way.
- Due to the fact that the West Coast is an arid environment, the local communities experience water restrictions from time to time, please help us by using water responsibly.
- We should mention that even though Yzerfontein is statistically a very low crime area, caution should still be taken and the premises be locked when you are away.

- A medical practitioner is available in town but unfortunately not 24 hours per day – please use the emergency Medical Response services.
- Every effort is made to service and maintain all amenities, equipment, and appliances to a fully operable and safe condition, and guests are requested to use and operate all these in a responsible manner. Kindly report any faulty conditions to the owners.
