Water Restrictions

As you know we are experiencing a water crisis, something that is out of our hands and affects all of us in the region, both residents and visitors.

Although water restrictions have been slightly relaxed, we would ask you still conserve water as much as possible to maintain the water resources for as long as possible.

Useful tips to save water.

- Only take a short shower.
- When washing your hands please put the plug in the basin and use only a small amount of water.
- When cleaning your teeth please don't let the tap run whilst brushing.
- Flush toilet only when necessary
- Wash dishes once just once a day.
- Please do not use outdoor taps, or leave any indoor taps running at any time. Should there be a leaking tap or running toilet please contact the agent.

Load Shedding

From time to time Eskom will be load shedding, please keep yourself up to date with the local schedules from Swartland Municipality.
