**The environment:**

- The Yzerfontein residential area is surrounded by nature reserves and Green Belts are running through the town. We ask that guests always respect the environment.
- Apart from a variety of small wild animals there are also snakes, such as Puffadders and Cape Cobras, during the warmer seasons and it is therefore advisable not to wander into the fynbos unattended. Should you encounter a snake, please contact the “snake catcher” on the number provided in the information book.
- At certain times of the year, such as the breeding season, ostriches could be dangerous too, rather do not approach them at any time and give them right of way – they were here first!
- Because the West Coast is an arid environment, the local communities experience water restrictions from time to time. Please help us by using water responsibly.

**Indemnity:**

Whilst every reasonable precaution has been taken to ensure the safety of our guests and their possessions on the premises, the owner, its agents, and/or its employees shall not be liable for any injury, loss, theft or damage suffered by a guest/s whilst on the premises. When booking at our establishments, the guest/s hereby indemnifies the owner of the establishment and Yzerfontein Accommodation against any claims arising from any injury, loss, theft or damage suffered by them on the premises. Guests enter at own risk.

**Staying in the beautiful, clean Yzerfontein and being able to welcome guests to a peaceful and mutually respectful environment and community is our priority and this forms this basis of our risk management.**
