

WEST COAST 2024 - 2025

EXPERIENCE THE ANNUAL HUMPBACK WHALE SUPER GROUP PHENOMENON

Whale Expedition SA offers expeditions to encounter the rich marine life present along the Cape West Coast. Annually, the region hosts the largest annual gathering of Humpback whales in the Southern Hemisphere.

"Humpback Whale Supergroups" - a novel, low latitude feeding behavior, unique to the Cape West Coast, a phenomenon rarely seen worldwide.

The Atlantic Ocean offers vast open spaces, is home to spectacular nature reserves along the West Coast with seascapes that appear to extend further than the horizon. The perfect backdrop in which to experience the Humpback Supergroups.

The Expedition crew are well versed in Whale Approach and Behaviour's. With over a decade of whale watching experience in various locations worldwide. Small groups, customisable expeditions are intimate and personal on all levels.
