

Directions to the Salt Mine

Follow google maps directions to 'West Coast Private Game Reserve'.

When you turn left off R27 into R315 in Yzerfontein, you will have Weskus Padstal on your left-hand side.

Continue straight along R315 for about 3.1km. You should pass 'That Greek Place' on your left before you reach the Reserve Entrance on your right. You will see signs for Blombosch and Born to Ride Safari and Beach Rides.

At the first gate you need to put in the code. Drive through the gate and wait for it to close.

At the second gate enter the same code as you did at the first gate. Drive through and wait for the gate to close behind you. We don't want any animals going on a day trip to Yzerfontein :)

Continue straight along the gravel path for approx. 3km. You will then see a main turn-off road to your right. Look for the wooden signboard with Rooikat Safari Collection written on it. Turn right here & follow the gravel road, it will take you straight to the accommodation (sign posted).

To open the gate into The Salt Mine, press the button. Once you drive through, the gate should close automatically behind you. When you want to leave the Salt Mine, follow the same process, press the button, drive through and the gate should close automatically.

Please note, no self-drives allowed on the reserve.
